## **Sunday Afternoon**

**Medium:** Digital Photography

### **Artist Statement:**

This photo shows a lot of contrasting textures, bold colors, and use of light in an interesting way. This image showcases that my photography is all about finding and combining interesting textures and light sources. I hope to take my art into the future by going into the fields of graphic design as well as art direction.

### **Description:**

Imagine you are laying on a blanket, having a picnic, re-reading your favorite book, and the sun is gleaming down on you keeping you warm. This photo showcases contrasting textures, bold colors and the use of shadows and light. The composition focuses on the back-lit drink and keeps your eyes moving throughout the photo in a triangular-like manner.
