## **The Heart of Artemis**

**Medium:** Acrylic on Canvas

### **Artist Statement:**

Artemis represents a strong self-sufficient woman. She is known for being the goddess of the hunt and the moon. I wanted the painting to emote the feeling of her becoming history.

### **Description:**

This piece is meant to depict both allegory and faith; how the ancient Greeks perceived this goddess as being real, while in modern times, we perceive her abstractly as an idea as embodied by a statue.

**Status:** Sell
