## **Words Unsaid**

**Medium:** Charcoal

### **Artist Statement:**

This piece is to represent the pain people go through, to remember the ones who have silenced their own voice. We are born with words to say, without them the world will be changed and less without your voice. So I dedicate this piece to all of the Words Unsaid.

### **Description:**

This is a charcoal sketch of hands with cuts on the wrist. This is original and inspired from experiences.
