Instructor: Jessa Morissey

a day with rango

Medium: Digital Photography

Artist Statement:

I am a 14 year old girl, who firsts used photography as a coping mechanism. But now I enjoy the process of photography and take photos any chance that I get. Everywhere I look, there is a new opportunity for photography. I have learned many new techniques and styles in my photography class that I will continue using as I grow as a photographer.

Description:

The art piece that I have submitted into this showcase is a picture of my bearded dragon rango. Rango is very human like, he has a big personality. He runs around looking in all directions posing, waiting for his picture to be taken. Rango is a big part of my life and my photography.
