

LMS 101 Series

Get started using your Learning Management System!

During LMS 101 you will:

- **Understand** how to effectively use your selected LMS.
- **Learn** ideas for how to develop, organize, and assign – classes, materials, activities, assignments, and assessments.
- **Investigate** resources and begin planning to use your LMS.
- **Develop** an understanding of LMS best practices during distance/ remote and/or in-person learning.
- **Participate** in a separate optional course to develop your online content with guidance and a community of other educators.
