### **A Drow Priestess**

**Medium:** Digital

#### **Artist Statement**

I strive to create characters and designs that express parts of themselves in ways I would like to. As a result, much of my work is influenced by the role playing games I play with friends.

#### **Description**

A portrait of a dark elf, from the game Dungeons and Dragons, with purple skin and hair. Patterns across their skin suggest bones and a cracked skull. Their eyes are closed, and expression neutral.

**Status:** Exhibit only
