Giraffe Study

Medium: Acrylic on Canvas

Artist Statement

Inspired by the giraffe and its unique form, I decided to push just how far I could go so the subject would look significantly different but would still be recognizable. In this study I decided to focus on and accentuate how the soft of an animal in real life, the sharp of shapes of contrasting colors, and the form of my subject all play and relate to the subject.

Description

Deconstructed Giraffe in 3 sections.

Status: Exhibit only
