## Mount Sac

**Medium:** Acrylic paint

### Artist Statement

This is a painting of me and my best friend after the final race of our season in cross country. Both of these things are very important to me because they have gotten me through hard times in life. I chose acrylic paint because it dries fast so I can layer colors quickly. I enjoy painting realism, and, in this painting, I focused on using color and space to make the foreground the focal point of the image.

### Description

I made this painting using acrylic paint. I enjoy painting realism because it is challenging, painting faces especially helps me to improve. It shows me and a friend after a cross country race. I made this painting to portray a happy memory that is important to me.
