Peace of Mind

Medium: Acrylic/oil

Artist Statement

Ever since I was younger I have had a hard time making friends. Instead of being with friends during recess, I would draw on the ground outside. I would take crayons and paper and draw all day long. During school, after I moved to Reardan, anytime I was able to do an art project I would. Art has been a way to show myself and tell others about me. This piece is about how I want to feel, peace is something I am longing for.

Description

This piece was made with acrylic and oil. I painted the woman with acrylic in black, gray, and white. the background in the hair was painted in oils to show some texture while providing the soft blended look to represent the feeling of peace. I wanted the hair section to have color to bring the main focus towards that part.
