Artist Statement

The inspiration for this piece mainly lies in my attraction to unconventional beauty. I enjoy how it feels to observe things that are not necessarily pretty but none the less demand attention. Creating art that is unconventionally beautiful allows me to embrace the idea that beauty is in the eye of the beholder more so than looking at work made by others. By creating art I get to see other people look at it and enjoy it even when they do not know why they want to look at something that is hardly describable as lovely. I loved making this piece. It was a long process that ended with a result I can be proud of.
