<p><i>North Central High School Institute of Science and Technology Center for Genome Sequencing</i></p> <p>Prior to COVID hands on techniques and use of tools in the lab was the central focus; now focus is on the analysis of data that tools produce. Analysis of large genomic data sets is a field of study, Bioinformatics. Grant will go towards an automated sequencing preparation system that would require minimal hands-on prep time. Data would generate from such a system and provide enough work for weeks discovering answers to questions that are developed, whether virtually or in person. Work in small groups to extract DNA from both larvae and adults; use technology purchased to sequence the genome of every microorganism found in their gut. Collaboration with GU, students will analyze metagenome to ID potential interactions with the pathogens that bioinformatics analysis; ask questions regarding the relationship between certain bacteriophages and strains of pathogenic bacteria.</p> <p>North Central High School Spokane School District</p>	<p>Dan Shay, Teacher 847-651-3116 <a href="mailto:dansh@spokane.schools.org">dansh@spokane.schools.org</a></p> <p>Christy Andrade, Professor of Biology, GU <a href="mailto:andrader@gonzaga.edu">andrader@gonzaga.edu</a> Aaron Putzke, Professor of Biology, Whitworth University <a href="mailto:aputzke@whitworth.edu">aputzke@whitworth.edu</a></p> <p>1600 N Howard St Spokane, WA 99205 509-354-6285</p>	<p>\$25,000</p>
